Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. This communication is in response to applicants' amendment filed on May 9, 2003.
2. Claims 3-12,15-29 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 19.
3. Applicant's election with traverse of Group V, claims 13,30-32 in Paper No. 19 is acknowledged. The traversal is on the ground(s) that the inventions are not distinct or independent. This is not found persuasive because the inventions as claimed are unrelated. Examiner was meant that the inventions are independent or unrelated since it is clear from the subject matter of all independent claims that they are not disclosed as capable of use together and they have different functions and effects. E.g. the structure as set forth in claim 34 is completely different from the structure as set forth in claim 3. This also shows that the search required for claim 3 is not required for claim 34 at all.

The requirement is still deemed proper and is therefore made FINAL.

4. Claims 13,14,30-34 are examined on merit since applicant has changed the dependency of claim 13 and 14 and added independent claim 34.

5. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the plurality of rods or fibers being connected electronically in parallel as set forth in claim 30 and rods being connected to an associated read-out circuit as set forth in claim 31 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

6. Claims 13,14 and 30-34 are allowed.

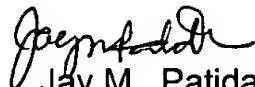

7. The following is an examiner's statement of reasons for allowance: The prior art fails to show or teach a magnetic field sensor with at least one rod or fiber of a first one of the magnetostrictive and piezoelectric materials, and a matrix of the second one of the magnetostrictive and piezoelectric material surrounding the at least one rod or fiber.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
